*The World Is No Longer Flat Culo is an art, fashion, and pop-culture movement that defies all national, cultural, and linguistic boundaries. No matter if you were raised to call it derriere, tush, rear end, or booty, culo is the new epicenter of female sexuality, desire, and empowerment. Over the past decade, some of the world's most celebrated women have subtly shifted our long-held ideals of physical perfection toward a shape that is more authentic and bold. While culo has long been venerated in certain cultures, it is now becoming the object of worldwide mainstream admiration. This emerging global love affair with culo is as much about the blending of African, Latin, European, and Asian beauty as it is about celebrating the female form's most coveted asset. Culo by Mazzucco pays tribute to this phenomenon through a singular artistic vision. In more than 200 photographs and artworks created on location around the world, a diverse group of women—some already legendary, some about to become so—embody the spirit of culo and the start of a new era of beauty.*

Comprehensive edition regarding the first 6 multimedia installations as originally envisioned by artist Otíliaca (b. Brazil). The Cosmococa photographic series consist of single rolls of film in accordance with the artist's concept of "quasi-cinema", participative spaces that transcend the cinematographic experience and call into question the contemplative nature of the art object and designed as collective experiences making the spectator an active participant. The present edition is faithful to the artist's original concept in it's presentation of facsimiles of both his notebooks in which the works were conceptualized and Otíliaca's own typewritten transcriptions along photographs of installations recently mounted at the Pinaocteca de Sao Paulo and at the Centro de Arte Hélio Otíliaca in Rio de Janeiro, two multimedia installations that precede the original photographs for Cosmococa. The book also contains critical essays by César Otíliaca Filho (curator of Projeto Hélio Otíliaca), Paulo Herkenhoff and Kátia Maciel.

Sangat! is a startling insight into the lives of Dalit women who face the double disadvantage of caste and gender discrimination. Written in a colloquial style, the original Tamil version overturns the decorum and aesthetics of upper-caste, upper-class Tamil literature and culture and, in turn, projects a positive cultural identity for Dalits in general and for Dalit women in particular. Sangat! flouts received notions about what a novel should be and has no plot in the normal sense. Itrelates the mindscape of a Dalit woman who steps out of her small town community, only to enter a caste-ridden and hierarchical society, which constantly questions her caste status. Realizing that leaving her community is no escape, she has to come to terms with her identity as an educated, economically independent woman who chooses to live alone. In relating this tale, Bama turns Sangat! into the story not just of one individual, but of a pariah community. Marked by rich ethnographic detail, Sangat! is a significant political and ideological contribution to Dalit writing in Tamil. With a critical introduction by Lakshmi Holmstrom, this book will appeal to readers interested in Indian writing in translation and to students and teachers of translation studies, the political and social history of modern India, and cultural studies.

These 18 essays published since 1965 by both British and American scholars focus on this and other broad aspects of study: Keats's degree of intellectual vigour, his philosophy and his current relevance. Seven contributions are original excerpts from studies in progress, presenting new historical evidence on the poet's major influences, his involvement in medicine and in his primary social and gender biases.*
