

Oxford English Dictionary Ship N Teachit English

A handy hardback volume for home, school, or work, the Pocket Oxford Thesaurus features synonyms and antonyms for everyday words, as well as language help. Updated with all the latest must-know vocabulary, and with a completely revised text, this second edition is an invaluable tool for anyone who writes for work, school, or pleasure, or anyone looking for the word on the tip of their tongue. The centre section of this thesaurus has been revised and now contains even more lists of nouns, such as insects, fruits, or drinks. This information can help you to broaden your knowledge, or to find the answer you are looking for in a quiz or a puzzle. The A-Z text of the thesaurus features usage notes to help you identify frequently confused words, such as affect and effect, or compliment and complement, so that you can avoid common pitfalls when you are writing. This thesaurus also contains Word Link features, helping you to find words that are closely associated with each other. For example, the Word Link at the entry law informs you that the words legal, judicial, and juridical all relate to laws, and the Word Link at darkness reveals that the fear of darkness is called scotophobia. Packed with extra tips and help, and with a completely revised and up-to-date text, the Pocket Oxford Thesaurus is an ideal reference book for anyone who wants to improve their writing.

This dictionary contains more than 25,000 headwords and derivatives along with related phrases and idioms. Like our other Bilingual Dictionaries, this has been specially compiled for learners of English, students, professionals and general readers. * Contains frequently used words from current use.* Provides detailed grammatical information especially on irregular nouns, verbs and adjectives.* Gives pronunciation in easy-to-understand format.* Provides variant and alternative spellings.* Gives pronunciation in an easy-to-understand format.* Provides detailed definitions and synonyms in Hindi.* Includes numerous examples of usage from authoritative sources which help to learn how a particular word is used.* Includes useful appendices on Roman numerals, weights and measures, and chemical elements.

The Oxford Handbook of Maritime Archaeology is a comprehensive survey of the field at a time when maritime archaeology has established itself as a mature branch of archaeology. This volume draws on the expertise of nearly fifty international scholars who examine the many distinct and universal aspects of the discipline.

This is a revised and updated edition of a popular and best-selling dictionary. It is the most authoritative, comprehensive, and up-to-date dictionary of its kind, one specially designed to be quickly and easily used in everyday life. Offering over 65,000 concise and readable entries, The Oxford Dictionary of Current English gives over 75,000 definitions, and provides usage notes that reflect the very latest patterns in the way English is both written and spoken. Including new words such as ageism, crop circle, ecu, karaoke, and peace dividend, it also provides spelling help for irregular forms, many example sentences, and unabbreviated, easy-to-follow etymologies. This revised edition also lists compound words as main headwords, includes a fascinating new words survey, and

clearly divides word senses, making it more accessible than ever. For business people, writers, students, and anyone who wants to use English correctly and effectively, The Oxford Dictionary of Current English is an indispensable reference tool.

This unique and celebrated biography describes how a largely self-educated boy from a small village in Scotland entered the world of scholarship and became the first editor of the Oxford English Dictionary and a great lexicographer. It also provides an absorbing account of how the dictionary was written, the personalities of the people working on it, and the endless difficulties that nearly led to the whole enterprise being abandoned. "It is a magnificent story of a magnificent man, one of the finest biographies of the twentieth century, as its subject was one of the finest human beings of the nineteenth." --Anthony Burgess "A moving and dramatic story . . . sometimes tragic, often comic, ultimately triumphant." --Times (London) "A biography that possesses many of the virtues of James Murray himself--grace, humor, intelligence, curiosity, and scholarship." --Time "In her vivid biography, Murray's granddaughter brings his remarkable personality to life, and provides an unexpectedly fascinating account of the OED's long and difficult birth." --Times Literary Supplement "A gripping, engaging story; endearing, too. The daily round of a big Victorian family, with its jokes, games, and treasured seaside holidays, is entrancingly evoked." --Sunday Times (London)

These volumes replace the 1933 Supplement to the OED. The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary -- that is, between 1884, when the first fascicle of the letter A was published, and 1928, when the final section of the Dictionary appeared -- together with accessions to the English language in Britain and abroad from 1928 to the present day. Nearly all the material in the 1933 Supplement has been retained here, though in revised form (Preface).

Offers definitions for English words and phrases, along with observations about the evolution of the dictionary since its first edition and tables that contain information for such topics as countries and chemical elements.

A completely revised and expanded edition of the southern African version of the Pocket Oxford Dictionary, this best-seller is packed with hundreds of new words as well as over 2500 South African entries. New Usage Notes provide guidance on standard English, while non-standard English usages and offensive words are highlighted. Grammar Notes, explaining difficult terms make this a vital dictionary for both teachers and students.

A concise resource of U.S. military terminology, people, and battles covers all conflicts involving the U.S. military, from early colonial times to the present day, and provides information on military ranks, uniforms, insignia, weaponry, vehicles, aircraft, ships, medals, and more. Original.

"The Pocket Oxford American Dictionary & Thesaurus" is the ideal all-in-one portable reference, with a dictionary and thesaurus combined in one handy, integrated volume.

The Oxford Dictionary and Thesaurus of Current English is a useful, one-stop reference guide with dictionary and thesaurus entries on the same page. The top section of each page contains the dictionary text, while the lower section gives matching thesaurus entries for many of the words covered by the dictionary, providing easy and convenient reference to both. This new edition has been redesigned and updated with new words and meanings, offering excellent coverage of all the words you need for everyday use. Replaces ISBN 978-0-19-860882-0

Containing over 100,000 definitions and alternative words, the Oxford Dictionary and Thesaurus of Current English is a one-stop guide offering wide-ranging coverage of everyday English, with dictionary and thesaurus entries on the same page. Accessible and user friendly, its clear layout and jargon-free entries make it quick and easy to find the word you need. Also included is a handy Spell-it-right guide, offering help with problem words, lists of common confusables, and tips on how to improve your spelling. Replaces the Oxford Quick Reference Dictionary and Thesaurus ISBN 0-19-860169-7.

PI Regan Reilly and her husband Jack, head of the NYPD Major Case Squad, investigate an L.A.-based business scam that extends up and down the coast of California --

Offering fuller understandings of both dramatic representations and the complexities of religious culture, this collection reveals the ways in which religion and performance were inextricably linked in early modern England. Its readings extend beyond the interpretation of straightforward religious allusions and suggest new avenues for theorizing the dynamic relationship between religious representations and dramatic ones. By addressing the particular ways in which commercial drama adapted the sensory aspects of religious experience to its own symbolic systems, the volume enacts a methodological shift towards a more nuanced semiotics of theatrical performance. Covering plays by a wide range of dramatists, including Shakespeare, individual essays explore the material conditions of

performance, the intricate resonances between dramatic performance and religious ceremonies, and the multiple valences of religious references in early modern plays. Additionally, Religion and Drama in Early Modern England reveals the theater's broad interpretation of post-Reformation Christian practice, as well as its engagement with the religions of Islam, Judaism and paganism.

Presents more than seven thousand words and phrases in contemporary usage, with variant spellings, grammatical applications, and definitions

The Oxford English-Hebrew Dictionary is a detailed guide to current usage in English and Hebrew. In addition to a full range of idioms and phrases, slang and colloquialisms, the dictionary offers comprehensive coverage of technical, scientific, legal, medical, and academic terminology. Care has also been taken to record British, American, and Australian variants. Both the presentation and content of the dictionary are designed to guide the reader through the pitfalls of varying register and context; clearly labelled senses and numerous example phrases ensure maximum clarity and accessibility. The result is an essential reference tool for English and Hebrew users alike. The Oxford English-Hebrew Dictionary was compiled and edited at the Oxford Centre for Hebrew and Jewish Studies.

This fully updated edition offers over 120,000 words, phrases, and definitions. It covers all the words you need for everyday use, carefully selected from the evidence of the Oxford English Corpus, a databank of 21st century English, containing over 2 billion words. The Factfinder centre section gives quick-reference entries on topics including famous people, countries, and science. Includes 3 months' access to Oxford Dictionaries Pro at oxforddictionaries.com.

An easy-to-use dictionary containing 90,000 up-to-date words, phrases, and definitions.

The standard dictionary of the English language micrographically printed in one volume

No place in Britain is more closely associated with a distinct dialect than Liverpool, yet the complex and fascinating history of language in Liverpool has been obscured by misrepresentation and myth. Scouse presents a groundbreaking and iconoclastic account of language in Liverpool, offering a new alternative to currently accepted history. Drawing on a huge breadth of sources—from plays to newspaper accounts to reports to little-known essays—and informed by recent developments in linguistic anthropology and sociolinguistics, Tony Crowley charts the complex relationship between language and place.

As the tricolor rose over revolutionary France, language, with its ability to define ideals and allegiances, was both a threat to authority and weapon to be wielded. In the early years of the Republic, the Académie Française, the royal body responsible for the French language, was suppressed by the National Convention at the urging of the Abbé Grégoire and the artist Jacques-Louis David. However, by 1795, the National Convention recognized that language could be used to its advantage, leading it to commission a fifth edition of the Dictionnaire de l'Académie française, which would unquestionably become the most controversial edition in the Académie's history. The National Convention expected this dictionary to champion the ideals of Revolution and Republic, but when it appeared three years later it did quite the opposite. Instead, the fifth edition virtually ignored the Revolution and the linguistic innovations that had transformed the French language, even omitting two of the most famous and enduring neologisms spawned by the Revolution—ancien régime and Terror. Present-tense definitions of abolished institutions and anachronistic values dominated the work and the Revolution was consigned to a brief and hastily-prepared supplement at the end of the second volume. Because of its failure to capture the current state of the French language, most contemporaries judged it harshly, and its deficiencies led the Parisian publisher Nicolas Moutardier to publish a competing dictionary in 1802. The dictionary became the focus of protracted litigation that Napoleon Bonaparte's government increasingly used to assert its control over language. Indeed, Bonaparte met personally with the commission of the Institut National (the republican successor to the Académie) and made clear his desire that the new edition not contain revolutionary neologisms. Eager to see the new edition appear, the Bonapartist regime committed financial resources and established a timetable for its completion within five years. However, it was only in 1835, after the fall of Bonaparte and the Bourbons, that the sixth edition would appear. Although the Académie was one of the most prominent institutions under the Old Regime, scholarship on the Académie remains largely neglected. Drawing on previously untapped sources in the Archives de l'Institut and Archives Nationales, *The Place of Words* is the first book-length study of the controversial fifth edition of the Dictionnaire de l'Académie française. Spanning more than half a century of changing regimes, this study provides unique insight into the ways in which each government, from the publication of the fourth edition in 1762 to the sixth in 1835, viewed the role of language as

an instrument of control.

This new edition of Oxford's flagship single-volume dictionary brings you the results of the latest research into the real English of today. Oxford is lead partner in the British National Corpus, a massive and constantly expanding hundred-million-word database which allows dictionary editors to sample today's language - newspapers, magazines, books, advertisements, even transcripts of spoken English. With thousands of occurrences of each common word available for instant analysis, lexicographers are able to track the latest trends in, for instance, spelling and hyphenation or disputed usages, with greater accuracy than ever before. This rolling, constantly updated 'opinion poll of language' combined with Oxford's unparalleled world reading programme (we spend more on language research than any other dictionary publisher in the world), ensures that COD9 is the up-to-date reference for today's English. This book tells the history of the Oxford English Dictionary from its beginnings in the middle of the nineteenth century to the present. The author, uniquely among historians of the OED, is also a practising lexicographer with nearly thirty years' experience of working on the Dictionary. He has drawn on a wide range of sources-including previously unexamined archival material and eyewitness testimony-to create a detailed history of the project. The book explores the cultural background from which the idea of a comprehensive historical dictionary of English emerged, the lengthy struggles to bring this concept to fruition, and the development of the book from the appearance of the first printed fascicle in 1884 to the launching of the Dictionary as an online database in 2000 and beyond. It also examines the evolution of the lexicographers' working methods, and provides much information about the people-many of them remarkable individuals-who have contributed to the project over the last century and a half.

In this comparative study of shipping interdiction, Douglas Guilfoyle considers the State action of stopping, searching and arresting foreign flag vessels and crew on the high seas in cases

such as piracy, slavery, drug smuggling, fisheries management, migrant smuggling, the proliferation of weapons of mass destruction and maritime terrorism. Interdiction raises important questions of jurisdiction, including: how permission to board a foreign vessel is obtained; whether boarding State or flag State law applies during the interdiction (or whether both apply); and which State has jurisdiction to prosecute any crimes discovered. Rules on the use of force and protection of human rights, compensation for wrongful interdiction and the status of boarding State officers under flag State law are also examined. A unified and practical view is taken of the law applicable across existing interdiction regimes based on an extensive survey of state practice.

"Based on the New Oxford dictionary of English"--Preface.

Contains more than forty thousand words and phrases along with sixty thousand translations, an updated word list, and verb tables.

An easy-to-use dictionary and thesaurus in one volume containing over 140,000 synonyms and antonyms.

This is the ideal handbook for everyone who cares about the proper use of the English language. Combining the Oxford Guide to English Usage and a compact Oxford dictionary, this volume is comprehensive and exceptionally convenient for regular consultation.

Complete Oxford English dictionary for spelling, meaning, pronunciation, and correct usage. A dictionary of business terms and abbreviations. Up-to-date guide to key computer terms. An A-Z of countries and major cities, including economic profiles.

"We visit the ugly corrugated iron structure that Murray grandly dubbed the Scriptorium -- the Scrippy or the Shed, as locals called it -- and meet some of the legion of volunteers, from Fitzedward Hall, a bitter hermit obsessively devoted to the OED, to W.C. Minor, whose story is one of dangerous madness, ineluctable sadness, and ultimate redemption. The Meaning of Everything is a scintillating account of the creation of the greatest monument ever erected to a living language. Simon Winchester's supple, vigorous prose illuminates this dauntingly ambitious project -- a seventy-year odyssey to create the grandfather of all word-books, the world's unrivaled uber-dictionary. Book jacket."--Jacket.

"This second edition provides significant new material on topics that have come to prominence in recent times, such as oceanography and marine archaeology: key contributions on these subjects from marine expert Dr. Martin Angel at Southampton Oceanography Centre include climate change, environmental issues, marine pollution, and marine wildlife. Among the many brand new entries to this edition are up-to-the-minute articles on underwater vehicles, tsunamis, warfare at sea, marine pollution, the Economic Exclusion Zone, and ship preservation." "This Companion also includes authoritative entries on maritime history: its naval battles, including Pearl Harbour and Trafalgar; its great ships, from Noah's Ark and the Bounty to the Titanic and the Mary Rose; and its most famous individuals, both real and fictional, including Christopher Columbus, Horatio Nelson, and Robinson Crusoe."--Jacket.

We all use Canadian English every day: when we order a pizza "all-dressed", hope to get a "seat-sale" to go south during "March break", or "book off" work to meet with a "CGA" to discuss "RRSPs". Language embodies our nation's identity, and The Canadian Oxford Dictionary, in its 1,728 pages, covers all aspects of Canadian life. Never before have Canadians been able to see their language, and themselves, so accurately and comprehensively described in a dictionary. The loggers of the west coast, the wheat farmers of the Prairies, the fishermen of the Atlantic provinces, the trappers of the

North; Canada's Aboriginal peoples, its British and French settlers, and the more recent arrivals, whether they came from Ukraine, Italy, South Asia or elsewhere - all have contributed to making Canadian English unique, and the dictionary thus reflects the great sweep of Canadian life. It contains over 2,000 distinctly Canadian words and meanings, more than any other Canadian dictionary, covering every region of the country. Whether you call your favorite doughnut a jambuster, a bismark, a Burlington bun, or the more prosaic jelly doughnut may depend on where you live in Canada, but they will all be found in The Canadian Oxford Dictionary. Of course, this is not just a dictionary of Canadian words: its 130,000 entries combine in one reference book information on English as it is used worldwide and as it is used particularly in Canada. Definitions, worded for ease of comprehension, are presented so the meaning most familiar to Canadians appears first and foremost. Each of these entries is exceptionally reliable, the result of thorough research into the language and Oxford's unparalleled language resources. Five professionally trained lexicographers spent five years examining databases containing over 20 million words of Canadian text from more than 8,000 Canadian sources of an astonishing diversity. Inuit Art Quarterly, The Fiddlehead, Canadian Business, and Equinox; the work of writers such as Jack Hodgins, Sandra Birdsell, David Adams Richards, and Pierre Berton; daily and weekly newspapers from across the country; and, of course, the Canadian Tire catalogue - all find a place in the evidence of The Canadian Oxford Dictionary. The lexicographers also examined an additional 20 million words of international English sources. For many Canadians one of the more puzzling aspects of writing is trying to determine whether to use the American spelling or the British spelling. Should it be "colour" or "color", "theater" or "theatre", "programme" or "program"? By examining our extensive Canadian databases, our lexicographers have been able to determine which, in fact, is the more common spelling: colour, theatre and program. Favoured Canadian pronunciations have also been determined by surveying a nationwide group of respondents. Oxford's thorough research has also ensured that new words that have recently appeared are well-represented. So if you're someone who puts on your "bicycle shorts" and "blades" over to the gym to do some "crunches" for your "abs" followed by work on your "lats",

"pecs" and "delts", finishing up with a "step" class, because you're afraid that being a "chocoholic" who loves "comfort food" will affect your "body mass index" and you want to avoid "yo-yo dieting", you'll find all these common words in The Canadian Oxford Dictionary. An added feature of this dictionary is its encyclopedic element. It includes short biographies of over 800 Canadians, ranging from Elvis Stojko, Celine Dion and Jean Beliveau to Nellie McClung, Lester B. Pearson, and Kim Campbell. It also contains entries on 5,000 individuals and mythical figures of international significance, and almost 6,000 place names, more than 1,200 of them Canadian. Indeed, all Canadian towns with a population of 5,000 or more are featured, and their entries not only explain the origin of the place name, but also include the population based on the 1996 census. With the publication of The Canadian Oxford Dictionary, Oxford University Press adds another work to its highly respected range of dictionaries, and Canadians finally have a dictionary that truly reflects their nations.

Sodomscapes presents a fresh approach to the story of Lot's wife, as it's been read across cultures and generations. In the process, it reinterprets foundational concepts of ethics, representation, and the body. While the sudden mutation of Lot's wife in the flight from Sodom is often read to confirm our antiscopic bias, a rival tradition emphasizes the counterintuitive optics required to nurture sustainable habitations for life in view of its unforeseeable contingency. Whether in medieval exegesis, Russian avant-garde art, Renaissance painting, or today's Dead Sea health care tourism industry, the repeated desire to reclaim Lot's wife turns the cautionary emblem of the mutating woman into a figural laboratory for testing the ethical bounds of hospitality.

Sodomscape—the book's name for this gesture—revisits touchstone moments in the history of figural thinking and places them in conversation with key thinkers of hospitality. The book's cumulative perspective identifies Lot's wife as the resilient figure of vigilant dwelling, whose in-betweenness discloses counterintuitive ways of understanding what counts as a life amid divergent claims of being-with and being-for.
